## Body Worn and In-Car Cameras

The Palisades Park Police Department is proud to announce the deployment of body worn and in-car cameras. Not only do the cameras serve as useful tools for recording evidence, more importantly they promote transparency, professionalism and accountability by documenting officer conduct and interactions with the public. All Palisades Park police officers assigned to patrol wear body cameras during their tour of duty. The department will deploy the BWC and in-car cameras to selected officers for the purpose of beta testing the devices beginning the week of January 20th 2020. After the beta testing is complete the department will deploy the cameras to all patrol officers.

Body cameras will be worn to enhance community trust and record public interactions in an official capacity. The cameras will be worn on the police officers outermost garment, on their upper body. The body worn and in-car cameras will be used in accordance with the New Jersey Attorney General's Guidelines.
